www.safetyinduct.com.au
ohsandhr@gmail.com

- Analyse your current OHS management systems then create, re-write, or further develop a comprehensive OHS management system
- Site inspections, safety audits and incident investigations
- Mentoring employees involved in managing OHS internally
- Online reporting (incidents, hazards, inspections etc)
- Planning and Performance reporting
- Hosting your OHS management systems online
- Customised online induction and training

Ask about Free Safety Advice

WorkSafe Victoria's OHS Essentials is a free workplace safety consultation service, delivered by independent OHS experts. We will visit your workplace to help you identify hazards and provide a practical safety action plan and check-in with you to gauge how you're tracking. Available to small and medium employers, registered for WorkCover insurance.
